6. RESPONSIBILITY OF PARTIES

6.1 Collaboration and early warning

The Contractor, the Employer and the Employer’s Representative on its behalf shall each, in the performance of the Contract, collaborate in a spirit of trust and mutual support in the interests of the timely, economic and successful completion of the Works. In particular, the Contractor and the Employer’s Representative shall each give notice to the other as soon as they become aware of any matter which is likely to affect the design or construction of the Works or to cause delay or additional Cost, irrespective of whether the matter is contended to give rise to any relief under the Contract. Upon the giving of such notice:

(a) The Employer’s Representative shall as soon as reasonably practicable arrange a meeting of appropriately authorised persons to consider actions or measures in response to the matter so notified and for avoiding or mitigating any such delay or additional Cost;

(b) Any actions or measures so agreed shall be put into writing and, when signed by the Contractor and (subject to express authorisation having been given in accordance with sub-clause 5.3 (Employer’s Representative’s Authority)), the Employer’s Representative on behalf of the Employer, shall be binding on the Parties;

(c) An agreement under sub-clause 6.1(b) may include matters of payment and/or extension of time, provided that any such agreement shall be deemed to be in full satisfaction of any claim by either Party arising out of the actions and measures included in the agreement;

(d) Where agreement is reached under sub-clause 6.1(b) but does not include matters of payment and/or extension of time, the rights of the Parties in respect of the matters agreed shall continue to be governed by the terms of the Contract; and

The Contractor shall comply with the Preliminaries and provide all labour, materials, equipment and everything whether of a temporary or permanent nature required for such design construction and completion and shall comply with the instructions of the Employer’s Representative or of any representative appointed in accordance with sub-clause 5.5 (Employer’s Representative Assistants). Where the Contractor has provided designs or carried out any other works (including preliminary works or site set-up) in relation to the Works under any other contract with the Employer, the Contractor shall not be able to disclaim responsibility for such design or work and shall be responsible for any error in such design or other works.

6.3 **Design of the Works**

(a) The Contractor shall be responsible for the design of the Works and for the design of all Temporary Works except to the extent that any design is the responsibility of the Employer in accordance with sub-clause 4.6(b).

(b) Where any part of the Works has been designed by or on behalf of the Employer and that design has been not be identified in the Technical Workscope as design for Employer Designed Works (and for which the Employer is therefore responsible in accordance with sub-clause 4.6(b)) then the Contractor shall accept responsibility for that design having first obtained the approval of the Employer’s Representative to any modifications to it which the Contractor considers to be necessary.

6.4 **Contractor’s Design**

Insofar as the design of the Works is comprised in the Contractor’s Proposals and in the designs and drawings referred to in sub-clause 4.8 (Contractor Designed Works) or is otherwise required by the Contract to be provided by the Contractor or for which it is otherwise responsible under the Contract (including any further design the Contractor is to carry out as a result of an alteration to the Technical Workscope), the Contractor warrants and undertakes to the Employer that:

(a) it has exercised and will continue to exercise in the design of the Works the reasonable skill, care and diligence to be expected of a professionally qualified and competent engineer or other appropriate consultant taking into account the size, scope, nature, type and complexity of the Works;

(b) the Works will, when completed, comply with any performance specification or requirement included or referred to in the Technical Workscope or the Contractor’s Proposals provided always that nothing in the Contract shall be construed as imposing a fitness for purpose obligation for the Works; and

(c) except where otherwise stated in the Contract and subject to Clause 23 (Employer Supplied or Facilitated Resources), the Works comprise or will comprise only materials and goods which are of new and satisfactory quality.

6.4A **Prohibited Materials**

(a) For the purposes of this sub-clause 6.4A, material is “prohibited” if, in the context of its use in the Works (whether alone or in combination with other materials):

(i) it poses a hazard to the health and safety of any person who may come into contact with the Works (whether during their construction or after their completion);

(ii) either by itself or as a result of its use in a particular situation or in combination with other materials it would or is likely to have the effect of reducing the normal life expectancy of any other material or structure in which the material is incorporated or to which it is affixed; or

(iii) it poses a threat to the structural stability or performance or the physical integrity of the Works or any part or component of the Works.
The Contractor shall not specify or authorise for use or permit to be used any materials which at the time the Works are being carried out are generally accepted or reasonably suspected of:

(i) being prohibited in themselves;
(ii) becoming prohibited when used in a particular situation or in combination with other materials;
(iii) becoming prohibited with the passage of time;
(iv) becoming prohibited without a level of maintenance which is higher than that which would normally be expected of a structure of the type under construction; or
(v) being damaged by or causing damage to the structure in which they are incorporated or to which they are affixed or other structure or any neighbouring property,

and the Contractor shall, when requested, issue to the Employer’s Representative and to such persons as the Employer’s Representative may require a certificate that no such materials have been specified for use or permitted to be used.

Without prejudice to its other obligations under the Contract, the Contractor warrants that it shall specify materials for use in the Works in accordance with the guidelines contained in publication “Good Practice in Selection of Construction Materials” (1997: Ove Arup & Partners) and that materials as used in the construction of the Works shall be in accordance with such guidelines.

6.4B Quality Plans and Checks

(a) The Contractor shall institute a quality assurance plan. The Contractor’s quality plan shall be submitted to the Employer’s Representative for its consent before each design and each construction stage is commenced. Compliance with such quality plan and procedures shall not relieve the Contractor from any of its other duties obligations or liabilities under the Contract. Where any Act of Parliament Regulation or By-Law requires that a separate check of the design or a test shall be carried out prior to the construction or loading of any permanent and temporary works the Contractor shall arrange and pay for such check or test.

(b) Further to its obligations under sub-clause 6.4B(a), the Contractor shall submit to the Employer’s Representative for its approval proposals for checking the design and setting out of the Works and testing the materials and workmanship to ensure that the Contractor’s obligations under the Contract are met.

(c) The Contractor shall carry out the checks and tests approved under sub-clause 6.4B(a) or elsewhere in the Contract and such further tests as the Employer’s Representative may reasonably require at its own cost.

(d) The Contractor shall provide such assistance and such instruments machines labour and materials as are normally required for examining measuring and testing any work and the quality weight or quantity of any materials used and shall supply samples of materials before incorporation in the Works for testing as may be required by the Employer’s Representative.

(e) Whenever an alteration to the Technical Workscope is ordered or consented to by the Employer’s Representative the Contractor shall consider whether any tests would be affected by or be appropriate in relation thereto and shall so inform the Employer’s Representative without delay. Any proposal for amended or additional tests shall be submitted as soon as possible.

6.5 Superintendence of Works

(a) The Contractor shall provide all necessary superintendence during the construction of the Works and for as long thereafter as the Employer’s Representative may consider necessary. The Contractor shall employ on the Works only such persons as are competent and have adequate knowledge of the work, including the hazards likely to be encountered. The Contractor shall have the duty to take all necessary and appropriate steps to maintain the safety of all persons entitled to be on the Site and to avoid any danger to the public. Subject at all times to the Contractor’s obligations under sub-clauses 6.6 and 6.9, the Employer shall have the same duty in relation to any work which it carries out itself or through a Direct Contractor. The Contractor shall keep the Site, so far as it is under its
control, and the Works, until substantial completion or occupation by the Employer, in a safe and orderly state.

(b) The Employer’s Representative may object to and require the Contractor to remove or cause to be removed from the Works any person who in the opinion of the Employer’s Representative misconducts themselves or is incompetent or negligent in the performance of their duties or fails to conform with any provisions with regard to safety set out in the Contract or persists in any conduct which is prejudicial to safety or health and such persons shall not be again employed upon the Works without the permission of the Employer’s Representative.

6.6 Safety of Work and Persons

(a) The Contractor shall take full responsibility for the adequacy, safety and stability of all site operations and methods of construction.

(b) The Contractor shall submit at such times and in such detail as the Employer’s Representative may reasonably require such information relating to the methods of construction (including Temporary Works and the use of Contractor’s Equipment) which the Contractor proposes to adopt or use and, if requested by the Employer’s Representative such calculations of stresses strains and deflections that will arise in the Permanent Works and any parts of them during construction from the use of such methods as are sufficient to demonstrate to the Employer’s Representative that if these methods are adhered to, the Works can be executed in accordance with the Contract and without detriment to the safe working of the railway or the property of the Employer and others or to the Permanent Works when completed.

(c) If the particulars or calculations provided show, in the Employer’s Representative’s opinion, any failure to meet the requirements of the Contract or detriment to the Permanent Works the Employer’s Representative may instruct the Contractor, at the Contractor’s cost, to change the proposed methods so as to meet the requirements of the Contract or to avoid any detriment to the Permanent Works.

6.7 Interference with Traffic and Adjoining Properties

(a) All operations necessary for the construction and completion of the Works shall so far as compliance with the requirements of the Contract permits be carried out so as not to:

(i) cause an unplanned interruption in the use of track or station areas or other railway infrastructure (it being acknowledged that the Employer may incur penalties and liabilities for this under its contractual and regulatory arrangements with third parties including, subject to sub-clause 39.3 (Railway Costs), passenger train and freight operators in accordance with Clause 28 (Track Possessions and Isolations));

(ii) interfere unnecessarily or improperly with:

(a) the convenience of the public; or
(b) the access to public or private roads footpaths or properties whether in the possession of the Employer or of any other person and with the use or occupation of them.

(b) All work shall be carried out without unreasonable noise disturbance or other pollution.

(c) To the extent that events caused by sub-clauses 6.7(a)(ii) and 6.7(b) are not the unavoidable consequence of carrying out the Works, the Contractor shall indemnify the Employer in respect of all claims, demands, proceedings, damages, costs and charges and expenses whatsoever arising out of or in relation to such matters.

(d) The Contractor will advise the Employer as soon as possible of any potential liability for damages on account of noise disturbances or other pollution which would be the unavoidable consequences of carrying out the Permanent and/or Temporary Works and on measures to avoid such liability. The Contractor will comply with any necessary changes to the Permanent and/or Temporary Works to the satisfaction of the Employer’s Representative. The cost of such compliance shall be borne by the Contractor unless, in the opinion of the Employer’s Representative, the compliance is a variation for the purposes of Clause 12 (Changes to the Works and Valuation) in which case, subject to Clause 13 (Additional Payment and Final Account) the Contract Price shall be adjusted by the
amount of such cost as may be reasonable except to the extent that such cost results from the Contractor’s breach of Contract or negligence.

6.8 Site Security

(a) The Contractor shall take all reasonable steps and all steps required by the Contract to prevent unauthorised persons being admitted to the Site. If the Employer’s Representative gives the Contractor notice that any person is not to be admitted to the Site, the Contractor shall take all practicable steps to prevent that person being admitted.

(b) Where access to the Site is required by way of the Employer’s land the route of such access shall be approved by the Employer’s Representative. The Contractor shall be responsible for ensuring that no person employed on its behalf trespasses beyond the agreed limits of the working area or access route and shall, if required so to do, provide and maintain to the satisfaction of the Employer’s Representative temporary fencing of an approved type to prevent trespass on the railway or neighbouring land.

(c) Passes are required for admission to the Site and the Employer shall either issue them to the Contractor or arrange for their issue by the Contractor. The Contractor shall submit to the Employer’s Representative a list of the names of the relevant employees and other persons issued or to be issued with passes and any other information which the Employer’s Representative reasonably requires in this connection. The passes shall be returned at any time on the demand of the Employer’s Representative and in any case on the completion of the Works.

(d) The Contractor shall maintain a record of all visitors to the Site and shall, if and when instructed by the Employer’s Representative, give to the Employer’s Representative a list of names and addresses of all persons who are or may be at any time concerned with the Works or any part of them, specifying the capacities in which they are so concerned, and giving such other particulars as the Employer’s Representative may reasonably require.

6.9 CDM Regulations

(a) The Contractor shall strictly comply with the Employer’s health and safety requirements as set out in the Contract Requirements HSEA. The Contractor shall ensure that all the Contractor’s employees, any Sub-Contractors and other persons engaged by it in relation to the Contract receive safety and skills training in accordance with the requirements of the Contract Requirements HSEA and the Employer may instruct the immediate replacement, at the Contractor’s cost, of any person on the Site who is not so trained.

(b) The “Principal Contractor” (for the purposes of and as defined in the Construction (Design and Management) Regulations 2015 (“CDM 2015”)) for the Project is as stated in the Appendix.

(c) If the Contractor is appointed Principal Contractor it warrants that it is competent to accept this appointment and that it will properly perform all the duties required of a principal contractor under CDM 2015.

(d) If the Contractor is not the Principal Contractor for the whole or any part of the Works it shall support the Principal Contractor to enable it to perform the duties required of the principal contractor under CDM 2015.

(e) The “Principal Designer” (for the purposes of and as defined in CDM 2015) for the Project is as stated in the Appendix.

6.10 Security Vetting

Contractor Personnel shall comply with the security arrangements as may be in force from time to time for the conduct of personnel at the Site and the Employer’s property and in the use of Employer IT networks, including:

(a) The Contractor shall undertake Baseline Personnel Security Standard (BPSS) pre-employment checks, as stated in the HMG Personnel Security Controls, for all Contractor Personnel that have access to Employer premises or Employer IT networks.

(b) Under the National Railways Security Programme (NRSP) some Contractor Personnel will be required to complete additional security checks as outlined in HMG Personnel Security Controls.
This applies to Critical National Infrastructure (CNI) sites and Managed Stations and those with access to CNI systems and information on sensitive train movements. The Employer’s Representative may designate other roles requiring these additional checks.

(c) The Contractor shall prevent Contractor Personnel who are unable to obtain the required security clearances from accessing Employer premises and Employer IT networks.

(d) Under NRSP all Contractor Personnel are required to undergo biennial statutory security training. These training records should be kept for five (5) years and be available on request. The training material will be provided by the Employer through e-learning at no additional cost to the Contractor.

(b) The Nominated Sub-Contractor does not agree to undertake to the Contractor such obligations and liabilities as will enable the Contractor to discharge its obligations and liabilities under the Contract; and

(b) if the occurrence of an Excepted Risk causes loss or damage to the Works the Contractor shall be entitled to financial compensation in the circumstances stated in sub-clause 8.4 (Rectification of Loss or Damage).

8.9 **Ordering a Variation**

Where any of the risks in sub-clauses 8.5 or 8.7 occur the Contractor shall comply with the instructions of the Employer’s Representative. If they include any variation the Contractor’s entitlement shall be as provided in Clause 12 (Changes to the Works and Valuation).

9.3 **Revised Programme**

Should it appear at any time that the progress of the work does not conform with the accepted programme, the Employer’s Representative may require the Contractor to submit a further programme showing such modifications as required to achieve completion in accordance with the Contract or to reduce delay and the
Contractor shall submit the further programme within such time as the Employer’s Representative may direct.

9.4 Extension of Time

The Contractor shall be entitled, subject to Clause 13 (Additional Payment and Final Account), to an extension of time for the completion of the Works or any Section of the Works where delay is caused by:

(a) any of the grounds set out in sub-clause 8.4(b) or 8.4(c) (Rectification of Loss), sub-clause 8.5 (Employer’s Risks) or sub-clause 8.7 (Shared Risks); and

(b) the valid exercise by the Contractor of its rights under Section 112 of the Housing Grants, Construction and Regeneration Act 1996 (as amended).

9.5 Employer’s Representative’s Assessment of Delay

Upon receipt of any claim for extension in accordance with sub-clause 13.1 (Notice of Claims), the Employer’s Representative shall consider all the circumstances known to it at that time and make an assessment of the delay (if any) that has occurred as a result of the alleged cause(s). In the absence of a claim by the Contractor the Employer’s Representative may make an assessment of the delay that it considers has occurred.

9.6 Interim Extension of Time

The Employer’s Representative shall, in the light of its assessments under sub-clause 9.5, grant to the Contractor any extension of time it considers fairly due for the substantial completion of the Works or any Section on an interim basis, and notify the Contractor and the Employer of the extension and of the reasons.

9.8 Final Extension

The Employer’s Representative shall within 28 days or such longer period as it may reasonably require after the issue of the Certificate of Substantial Completion for the Works or for any Section review all the circumstances known to it and finally determine the extension of time (if any) to which it considers the Contractor fairly entitled in respect of the Works or the relevant Section and notify the Contractor and the Employer of the final extension and of the reasons. No such final review shall result in a decrease in any extension of time already granted by the Employer’s Representative pursuant to sub-clauses 9.6 or 9.7.

10. PERFORMANCE AND COMPLETION

10.1 Contractor to Proceed

The Contractor shall commence the Works on or as soon as practicable after the Commencement Date, which shall be the date for commencement of the Works stated in the Appendix or otherwise as agreed between the Parties in writing. The Contractor shall then proceed with the Works with due expedition and without delay in accordance with the Contract.

10.2 Site Access

Subject to sub-clause 6.7(a) (Interference with traffic and adjoining properties), Clause 26 (Track Possessions and Isolations) and any restrictions included in the Contract, the Employer shall give the Contractor a non-exclusive licence to occupy the Site and such access to it as is necessary for the construction of the Works.

The Contract Price shall not be adjusted for the cost of any access or facilities outside the Site required by the Contractor for the purposes of the Works that are additional to those provided by the Employer.

10.3 Time for Completion

The whole of the Works and any Section required to be completed within a particular time as stated in the Appendix shall be completed within the times so stated, subject to sub-clause 10.4 and subject to any extensions granted under Clause 9 (Programme and Time for Completion). Provided that a part of the Works shall not be deemed completed unless the Employer agrees in writing to accept completion of it.

10.4 Substantial Completion

(a) For the purposes of the Contract completion means substantial completion such that all the work required by the Contract has been carried out (including any Tests on Completion under Clause 43.3 (Tests on Completion) (if applicable) but excluding Performance Tests under Clause 43.4 (Performance Tests)) save for any omission or defect which does not prevent use of the Works for their intended purpose. The Contractor shall give written notice to the Employer’s Representative of the date upon which the Works or any Section are substantially complete.

(b) The Employer’s Representative shall within 21 days of such notice, or if in the absence of such notice the Employer’s Representative considers at any time that a Certificate of Substantial Completion is or may be due, either issue to the Contractor a Certificate of Substantial Completion or notify the Contractor of work which is required to be completed before the issue of such certificate. Upon such completion the Employer’s Representative shall issue a Certificate of Substantial Completion.

(c) Subject to sub-clause 10.3, the Works or any Section or part of the Works shall be deemed complete where:

(i) the Employer’s Representative agrees in writing to defer any outstanding items of work until after completion; or

(iii) and in either such case the Contractor agrees in writing to complete the outstanding work within such time as shall be agreed or, in default of agreement, within the Defects Correction Period. The Employer’s Representative shall certify when such deemed completion occurs.

(d) In the event that the Employer’s Representative issues a Certificate of Substantial Completion under this Clause 10.4 without any notice having been given by the Contractor under this Clause 10.4, upon the issue of such certificate the Contractor shall be deemed to have given an undertaking to finish any outstanding work in relation to the Works or the relevant Section in accordance with the provisions of Clause 10.5.

10.5 Defects Correction

(a) The Contractor shall, during the Defects Correction Period stated in the Appendix rectify any defects and complete any outstanding works within the time or times stated in the Contract or as otherwise agreed in accordance with sub-clause 10.4(c) (or if no time is stated or agreed as soon as practicable during the Defects Correction Period).

(b) The Contractor shall be given access to the Works to rectify any notified defects and to complete any outstanding works. Such access shall only be allowed in line with the Employer’s requirements for the Site (including operation of the railway) and is at the Contractor’s own risk and cost. Rights of access may only be available during planned speed restrictions, track possession or isolation at the discretion of the Employer.

(c) Subject to any other agreement of the Parties, the Defects Correction Period runs from the date on which the Works or any Section or part are or are deemed substantially completed.
10.6 **Liqui**

dated Damages

If the Contractor fails to achieve completion of the whole of the Works as required by sub-clause 10.3 it shall pay to the Employer Liquidated Damages, as stated in the Appendix, for every day during which the Works remain uncompleted. If any part of the Works achieves or is deemed to achieve completion before the completion of the whole, the Liquidated Damages shall be reduced in proportion to the value of the part so completed.

10.7 **Liquidated Damages for Sections**

Where any Section of the Works is required to be completed before completion of the whole, Liquidated Damages payable in respect of that Section shall be stated in the Appendix and sub-clause 10.6 shall apply as though the Section were the Works.

10.8 **Limit of Liquidated Damages**

(a) Subject to sub-clause 39.2 (Exclusions from Limits of Liability), the Appendix shall state any limit applicable to the amount of Liquidated Damages that may be deducted ("Liquidated Damages Cap").

(b) The Liquidated Damages Cap is a sub-cap within the Aggregate Liability Cap.

(c) Any Railway Costs for which the Contractor is liable in accordance with the Contract shall not be included in the Liquidated Damages calculation or subject to the Liquidated Damages Cap but are subject to a separate sub-cap within the Aggregate Liability Cap in accordance with sub-clause 39.3 (Railway Costs).

10.9 **Payment of Damages**

Subject to sub-clause 11.12 (Omission from Certificate), Liquidated Damages payable by the Contractor may be deducted from any sum becoming due under the Contract. Otherwise the Employer may require the Contractor to pay such amount to the Employer forthwith.

10.10 **Repayment of Damages**

If upon a subsequent or final review under Clause 9 (Programme and Time for Completion), or as a result of any matter occurring after the date the Employer became entitled to Liquidated Damages, the Contractor is entitled to any or any further extension of time, any Liquidated Damages deducted or recovered by the Employer in excess of the amount to which it is entitled shall be repayable to the Contractor forthwith together with interest compounded monthly at the rate of 4% per annum above the base lending rate of the bank specified in the Appendix.

10.11 **Rate of Progress**

If for any reason which does not entitle the Contractor to an extension of time the rate of progress of the Works or any Section is in the opinion of the Employer’s Representative too slow to ensure completion by the time or extended time for completion, the Contractor shall if so required by the Employer’s Representative specify and take such steps necessary (and to which the Employer’s Representative consents) to achieve timely completion. In such a case:

(a) The Contractor shall be entitled to change any accepted programme and to adopt any new or changed method of working; and

(b) The Contractor shall not be entitled to any additional payment or extension of time in respect of any such measures.

10.12 **Acceleration**

Quantities set out in the Pricing Document are deemed to be fixed. The Contractor shall be paid for the quantity at the rates contained in the Pricing Document. Where any item in the Pricing Document is not in accordance with the Method of Measurement referred to in sub-clause 11.2 or if the total of the Pricing Document does not equal the accepted Tender Total the Employer’s Representative shall be empowered to adjust the rates or make any other adjustment to the Pricing Document so as to correct the error or discrepancy provided that the total value of the adjusted Pricing Document shall equal the accepted Tender Total and the adjusted Pricing Document shall be deemed to be the Pricing Document for the purpose of the Contract.

11.4 Interim Statements

The Contractor shall submit to the Employer’s Representative following the end of the first Agreed Rail Industry Period in which the Commencement Date falls and thereafter at 28 day intervals an interim statement specifying the sum which the Contractor considers to be due at the following payment due date and the basis on which the sum is calculated. The payment due date is 14 days after the date of delivery of the Contractor’s interim statement. The interim statement shall include the following amounts:

(b) the value of Milestones achieved up to the end of the immediately preceding Agreed Rail Industry Period;
(c) a list of any goods or materials delivered to the Site but not yet incorporated in the Permanent Works and their value;

(c) any deductions of sums due from the Contractor under the Contract including under Clause 29 (Set-Off) or for any other reason (including for losses arising from the Contractor’s breach of contract).

The final date for payment is 21 days after the date of delivery of the Contractor’s interim statement.
Amounts certified in respect of nominated sub-contracts shall be shown separately in the certificate.

If the Contractor fails to submit the interim statement as required by sub-clause 11.4, the Employer’s Representative shall certify the sum that the Employer’s Representative considers to be due at the payment due date and specify the basis on which that sum is calculated. The certificate issued by the Employer’s Representative in accordance with this sub-clause 11.5 shall be a payment notice for the purposes of the Housing Grants, Construction and Regeneration Act 1996 (as amended) and the Employer’s Representative shall issue the payment notice even if the amount that it considers to be due is zero.

11.10 Interest in Adjudication

If in an adjudication pursuant to the Contract the adjudicator holds that any sum or additional sum should have been certified by a particular date this shall be regarded as a failure to certify such sum or additional sum, which shall be deemed to be due for payment 28 days after the date by which the adjudicator holds that the Employer’s Representative should have certified the sum and interest as provided in sub-clause 11.9 shall accrue on that sum.

11.11 Omission from Certificate

The Employer’s Representative shall have power to omit from any certificate the value of any work done goods or materials supplied or services rendered with which it may for the time being be dissatisfied and for that purpose may by any certificate delete correct or modify any sum previously certified.

11.12 Construction Industry Scheme

(a) For the purposes of this sub-clause 11.12, the “Scheme” shall mean the Construction Industry Scheme, as provided for in Chapter 3 of the Finance Act 2004 and the Income Tax (Construction Industry Scheme) Regulations 2005;

(a) The Contractor shall be deemed not to have allowed in the Contract Price for the tax payable by it as a taxable person to HM Revenue and Customs being tax chargeable on any taxable supplies to the Employer which are to be made under the Contract.
(b) All certificates issued by the Employer’s Representative under sub-clause 11.5 shall be net of Value Added Tax and the Contractor shall not issue any claim, statement of sums due or account to the Employer or the Employer’s Representative inclusive of Value Added Tax. When requesting or claiming payment the Contractor shall state how the work or supply in question is rated for the purposes of Value Added Tax and show separately any relevant rates of Value Added Tax relating to the work or supplies.

(c) For the purposes of sub-clause 11.13, “Reverse Charge Order” means the Value Added Tax (Section 55A) (Specified Services and Excepted Supplies) Order 2019/892.

(d) The Contractor warrants that it has fully complied and will continue to fully comply with the Reverse Charge Order where applicable to works under the Contract.

(e) Should the Employer’s status as an end user change then the Employer will use reasonable endeavours to notify the Contractor and the Contractor shall apply or disapply the Reverse Charge Order accordingly.

(f) In addition to the payments due under the Contract the Employer shall separately identify and pay to the Contractor any Value Added Tax properly chargeable by HM Revenue and Customs on the supply to the Employer of any goods and/or services by the Contractor under the Contract.

(g) If any dispute difference or question arises between either the Employer or the Contractor and HM Revenue and Customs in relation to any tax chargeable or alleged to be chargeable in connection with the Contract or the Works each shall render to the other such support and assistance as may be necessary to resolve the dispute difference or question.

(j) The Contractor shall issue to the Employer, upon receipt of any amount paid by the Employer under the Contract and any Value Added Tax properly paid under sub-clause 11.13(b), an authenticated receipt of the kind referred to in Regulation 13(4) of The Value Added Tax Regulations 1995 (or any amendment or re-enactment) containing the particulars required under Regulation 14(1) of the same Regulations to be contained in a VAT invoice.

12. CHANGES TO THE WORKS AND VALUATION

12.1 Variation to Works

The Employer’s Representative may order any variation to any part of the Works that it considers necessary for the satisfactory completion of the Works or that for any other reason shall in its opinion be desirable for the completion and/or improved functioning of the Works. Variations may include additions or omissions and changes to any specified sequence, method or timing of construction. Variations may be ordered at any time up to the end of the Defects Correction Period.

12.2 Order in Writing

Variations shall be ordered in writing but subject to sub-clause 5.6 (Instructions in Writing). The Employer’s Representative may instruct work to be carried out on daywork basis, where there is no other appropriate means of valuing the work. Daywork will only be used as a basis for valuing works where expressly instructed by the Employer’s Representative.

12.3 Contractor’s Offer

If the Contractor submits to the Employer’s Representative an offer to vary the Works the following shall apply:

(a) the Employer’s Representative may require the Contractor to submit with its offer:
(i) the amount to be paid for the varied work and for any other effects of the offered variation; and

(ii) any consequential delay and the financial consequences insofar as not included in (i).

(b) If the Employer’s Representative accepts the Contractor’s offer (whether as submitted or with agreed modifications) it shall issue a variation order, and the Contractor shall thereafter be entitled to be paid and to be granted an extension of time in accordance with the Contractor’s offer, as submitted or modified, and shall have no further entitlement in regard to such variation.

12.4 Contractor to Quote

The Employer’s Representative may similarly require the Contractor to submit its quotation for the amount to be paid and for any consequential delay and the financial consequences as in sub-clause 12.3 in regard to any variation ordered or proposed to be ordered and the Employer’s Representative may similarly accept the Contractor’s quotation (whether as submitted or with agreed modifications). Where accepted, the Contractor shall thereafter be entitled to be paid and to be granted an extension of time in accordance with the Contractor’s quotation, as submitted or modified, and shall have no further entitlement in regard to such variation.

12.5 Contractor’s Default

The value and time implications of all variations shall be taken into account in ascertaining the amount of the Contract Price and time for completion except in each case to the extent that such variation is necessary by reason of the Contractor’s breach of the Contract or negligence.

12.6 Valuation of Variations

Subject to sub-clauses 12.3 or 12.4, variations ordered by the Employer’s Representative in accordance with sub-clause 12.1 shall be valued by the Employer’s Representative in accordance with the following principles:

(a) Where work is of similar character and carried out under similar conditions to work priced in the Pricing Document it shall be valued at such rates and prices contained therein as may be applicable;

(b) Where work is not of a similar character or is not carried out under similar conditions or is ordered during the Defects Correction Period the rates and prices in the Pricing Document shall be used as the basis for valuation so far as may be reasonable failing which a fair valuation shall be made.

13. ADDITIONAL PAYMENT AND FINAL ACCOUNT

13.1 Notice of Claims

(a) If the Contractor intends to claim any additional payment or any allowance of additional time for completion of the Works or any Section under these Conditions, it must give notice to the Employer’s Representative using the claim submission format and an accompanying Claim Sign Off Sheet as detailed in the Preliminaries as soon as reasonably practicable after becoming aware of the facts giving rise to the claim.

(b) Thereafter the Contractor must keep contemporary records, including data in such electronic or computerised format, as may be required by the Appendix or agreed with the Employer’s Representative, and submit full and detailed particulars of the claim within such further period as the Employer’s Representative may direct. Such details shall include where appropriate consideration of alternative design measures and methods or procedure with comparative estimates of costs and delays.

13.2 Failure to Give Notice

(a) If the Contractor fails to give notice in accordance with sub-clause 13.1 which an experienced contractor could have given the Employer’s Representative shall determine any entitlement to additional payment or any allowance of additional time for completion of the Works or any Section as if the Contractor had given that notice.
(b) Without prejudice to sub-clause (a), if the Contractor has not given notice of a claim within twelve weeks after it became aware or an experienced contractor would have become aware of the event giving rise to the claim, the Contractor shall have no entitlement to additional payment or any allowance of additional time for completion of the Works or any Section unless the event arises from the Employer’s Representative giving any instruction, issuing a certificate or changing any earlier instruction.

13.3 Assessment of Claim

Subject to sub-clause 13.1, if an Employer’s Risk or a Shared Risk occurs which causes delay or disruption to the Works, provided and to the extent that the Employer’s Risk or a Shared Risk did not occur as a result of the Contractor’s breach of the Contract or negligence, the Employer’s Representative shall after consultation with the Contractor:

(a) in the case of an Employer’s Risk, determine the amount of any additional Cost incurred by the Contractor, together with a reasonable amount in respect of any loss of profit where incurred, and

(b) in the case of both Employer’s Risks and Shared Risks, shall take such delay into account in determining any extension of time to which the Contractor is entitled under Clause 9 (Programme and Time for Completion).

13.4 Defects Correction Certificate

At the end of the Defects Correction Period or if more than one the last of such periods, and when all outstanding work and all work of repair and making good of defects or other faults has been completed, the Employer’s Representative shall issue a Defects Correction Certificate stating the date on which the Contractor shall have completed its obligations under the Contract to the Employer’s Representative’s satisfaction. The issue of the Defects Correction Certificate shall not be taken as relieving either the Contractor or the Employer from any liability towards the other arising out of or in any way connected with the performance of their obligations under the Contract.

13.5 Statement of Final Account

Not later than 3 months after the date of the Certificate of Substantial Completion (or, where there is more than one, after the date of the last in time to be issued) the Contractor shall submit to the Employer’s Representative a statement of final account and supporting documentation showing in detail the value in accordance with the Contract of the Works carried out together with all further sums, which the Contractor considers to be due to or from it under the Contract up to and including the date of the Certificate of Substantial Completion (or, where there is more than one, after the date of the last in time to be issued).

13.6 Not used

13.7 Final Certificate

(a) Within 3 months after receipt of the statement of final account and of all information reasonably required for its verification the Employer’s Representative shall issue a final certificate stating the amount which in its opinion is finally due under the Contract from the Employer to the Contractor or from the Contractor to the Employer as the case may be up to and including the date of the Certificate of Substantial Completion (or, where there is more than one, after the date of the last in time to be issued) and after giving credit to the Employer for all amounts previously paid by the Employer and for all sums to which the Employer is entitled under the Contract.

(b) The amount finally due under the Contract shall be evaluated on the basis of the total of payments due to the Contractor by the Employer under the terms of this Contract less any previous payments on account and any sums deductible from the Contractor or payable from the Contractor to the Employer either under Clause 29 (Set-Off) or for any other reason (including for losses arising from the Contractor’s breach of contract).

(c) Any certificate issued by the Employer’s Representative under this sub-clause 13.7 shall be a payment notice for the purposes of the Housing Grants, Construction and Regeneration Act 1996 (as amended) and the Employer’s Representative shall issue the payment notice even if the amount that it considers to be due is zero.
13.8 **Final Date for Payment**

Not later than 5 days after the issue of the final certificate the Employer shall give the Contractor a written notice specifying the amount of the payment to be made by the Employer or Contractor (as the case may be), to what the payment relates and the basis on which the amount was calculated. The final date for payment is 21 days after the date of issue of the final certificate.

13.9 **Failure to Submit Final Statement**

(a) In the event that the Contractor fails to submit to the Employer’s Representative its statement of final account and supporting documentation in accordance with sub-clause 13.5, then not later than 6 months after the date of the Certificate of Substantial Completion (or, where there is more than one, after the date of the last in time to be issued) the Employer’s Representative may issue a certificate stating the amount which in its opinion is finally due under the Contract in accordance with sub-clause 13.7.

(b) The payment becomes due 9 months after the date of the Certificate of Substantial Completion (or, where there is more than one, after the date of the last in time to be issued). The final date for payment is 21 days later.

13.10 **Works after Substantial Completion**

(a) If the Contractor executes further Works after the date of the Certificate of Substantial Completion (or, where there is more than one, after the date of the last in time to be issued) for which it is entitled to payment under the Contract, then, not later than 3 months after the date of the substantial completion of such further Works, the Contractor shall submit to the Employer’s Representative a further statement of account and supporting documentation, showing in detail the value in accordance with the Contract of such further Works executed, together with all further sums which the Contractor considers to be due to it under the Contract up to and including the date of the Certificate of Substantial Completion.

(b) Within 3 months after receipt of the further statement of account and of all information reasonably required for its verification, the Employer’s Representative shall issue a certificate stating the amount which in its opinion is finally due under the Contract from the Employer to the Contractor or from the Contractor to the Employer, as the case may be, up to and including the date of the Certificate of Substantial Completion and after giving credit to the Employer for all amounts previously paid by the Employer and for all sums to which the Employer is entitled under the Contract and any sums deductible from the Contractor or payable from the Contractor to the Employer either under Clause 29 (Set-Off) or for any other reason (including for losses arising from the Contractor’s breach of contract).

(c) Such amount shall be paid to or by the Contractor, as the case may require. The payment becomes due 3 months after the Employer’s receipt of the further statement of account and the information reasonably required for its verification. The final date for payment is 21 days later.

14. **FORCE MAJEURE**

14.1 **Force Majeure**

Force Majeure means any circumstance outside the control of either Party and not attributable to the breach of Contract or negligence of either Party (including failure to take reasonable preventative action) which arises during the currency of the Contract which renders it impossible or illegal for either Party to fulfil its contractual obligations including:

(a) the exercise after the date of tender by the United Kingdom Government of any statutory power that directly affects the execution of Works;

If any part of the Plant is being manufactured on premises other than the Contractor’s own, the Contractor shall obtain permission for the Employer’s Representative to inspect, examine and test such Plant as if it were being manufactured on the Contractor’s premises. Such inspection, examination or testing shall not release the Contractor from any obligation under the Contract.

(b) If not specified in the Contract, the Contractor shall agree with the Employer’s Representative the date on and the place at which any Plant will be ready for inspection, examination or testing. The Employer’s Representative shall give the Contractor 24 hours’ notice of its intention to attend the test or inspection. If the Employer’s Representative shall not attend on the date and at the place agreed, the Contractor may proceed with the inspection, examination or test which shall be deemed to have been made in the Employer’s Representative’s presence. The Contractor shall forthwith forward to the Employer’s Representative duly certified copies of the results of the inspection, examination or test.

(c) The Contractor shall provide such assistance, labour, materials, electricity, fuel stores, apparatus and instruments as may be necessary or as may be reasonably requested by the Employer’s Representative for the purposes of carrying out any such inspection, examination or test.

Following any such rejection the Contractor shall make good or otherwise repair or replace the rejected Plant and resubmit the same for inspection, examination or testing in accordance with this Clause 43. All expenses reasonably incurred by the Employer in consequence of such re-inspection, re-examination or re-testing and the Employer’s Representative’s attendance shall be deducted from any amounts due to the Contractor under the Contract.

(b) Provided that where the conduct of the Tests on Completion requires signalling disconnections and/or restricts the operating railway in any way, the Contractor shall submit to the Employer’s Representative for its acceptance, pursuant to sub-clause 9.1, a programme showing those dates and times at which the Contractor requests access to the operating railway to complete the Works, and any such request for access that is disruptive to the railway shall be made in accordance with Clause 28 (Track Possessions and Isolations).

(c) No signalling testing activity of any sort shall take place unless the Testing Strategy and Test Plan(s) have been approved in writing by the Employer. If the Contractor fails to submit any pre-test documentation within the time limits specified in the Signalling Testing Handbook or the submitted documentation is not approved for any reason, the proposed Tests on Completion shall not take place and the Contractor shall submit alternative arrangements to the Employer for its acceptance. Such arrangements shall be at no additional cost to the Employer and all costs which the Employer may incur in the re-arrangement of the Tests on Completion shall be deducted from any amounts due to the Contractor under the Contract.

(f) If any Plant fails to pass the Tests on Completion it shall be repeated within a reasonable time. All expenses reasonably incurred by the Employer in consequence of such repetition of the Tests on Completion and the Employer’s Representative’s attendance shall be deducted from any amounts due to the Contractor under the Contract.

(d) If any Plant fails to pass any Performance Test (or repetition thereof) or if any Performance Test is stopped before its completion, such test shall, subject to sub-clause 43.4(e), be repeated as soon as practicable thereafter. Any additional cost incurred by the Employer by reason of the repetition of any Performance Test shall be deducted from any amounts due to the Contractor under the Contract. The Employer shall permit the Contractor to make adjustments and modifications to any part of the Plant before the repetition of any Performance Test and shall, if required by the Contractor, shut down any part of the Plant for such purpose and re-start it after the adjustments and modifications have been made. All such adjustments and modifications shall be made by the Contractor with all reasonable speed and at its own expense. The Contractor shall, if so required by the Employer’s Representative, submit to the Employer’s Representative for its approval details of the adjustments and modifications which it proposes to make.

(e) If any Plant fails to pass any Performance Test (of repetition thereof) and the Contractor in consequence proposes to make any adjustments or modifications thereto, the Employer’s Representative may notify the Contractor that the Employer requires the carrying out of such adjustments or modifications to be postponed. In such event the Contractor shall remain liable to carry out the adjustments or modifications and a successful Performance Test within a reasonable time of being notified to do so by the Employer’s Representative. If however the Employer’s Representative fails to give any such notice within one year of the date of substantial completion of that part of the Works in which such Plant is incorporated, the Contractor shall be relieved of any such obligation and any Plant shall be deemed to have passed such Performance Test.
